-

Overall Business Implications :

1. Focus on Peak Hours & Shifts

- Morning (10 AM) and Night shifts drive most sales.
 - Staff and stock should be optimized during these hours.
-

2. Promote Top Coffee Types

- Latte and Americano with Milk generate most revenue and repeat purchases.
 - Feature these in combos, loyalty programs, or promotions.
-

3. Encourage Seasonal Products

- Hot Chocolate in winter, Latte in Autumn, and Americano with Milk in Summer perform well.
 - Offer seasonal promotions to boost engagement.
-

4. Weekday Promotions

- Monday–Tuesday show highest sales; weekends are weaker.
 - Incentivize weekend visits through discounts or specialty drinks.
-

5. Monitor Less Popular Products

- Espresso consistently underperforms.
 - Consider price adjustments, promotions, or bundling to improve sales.
-

6. Customer Retention & Pricing Strategy

- Average spending is consistent across weekdays/weekends.
 - Consider upselling premium coffees like Hot Chocolate to maintain profitability.
-

7. Optimize Coffee Bundles & Combos

- Combine popular and moderately-selling coffees into bundles to increase overall sales.
- Offer “morning combo” (Americano with Milk + pastry) or “evening combo” (Latte + snack) to encourage higher transaction values.

8. Introduce Loyalty Programs

- Reward repeat customers, especially those buying top-selling items daily like Americano with Milk and Latte.
 - Implement point-based or tiered rewards to drive long-term customer retention.
-

9. Adjust Inventory Based on Seasonal Demand

- Stock Hot Chocolate more in winter and Latte in Autumn to prevent shortages.
 - Reduce stock of less popular items during off-season to minimize wastage.
-

10. Analyze Customer Segments

- Identify high-spending customers or frequent buyers.
 - Offer personalized promotions, e.g., discounts on their preferred coffee or free upgrades.
-

11. Promote Premium Pricing Strategically

- Hot Chocolate commands the highest average price; advertise it as a premium product.
 - Encourage upselling by pairing premium items with standard coffees.
-

12. Enhance Marketing for Slow Days

- Focus promotions on weekends or low-performing weekdays to balance revenue.
 - Use social media or in-store campaigns highlighting special offers on these days.
-

13. Track Repeat Purchase Patterns

- Leverage data showing Americano with Milk and Latte dominate daily sales.
 - Encourage trial of other coffees through “buy 1, try 1” offers to diversify customer preferences.
-

14. Improve Customer Experience During Peak Hours

- Reduce wait times during 10 AM and Night shifts by increasing staff and optimizing workflow.
- Ensure quality consistency and timely service to maintain high customer satisfaction.

15. Use Data for Future Product Launches

- Seasonal and time-based insights can guide new flavors or limited-edition coffees.
 - Test products in high-performing hours or seasons to maximize initial uptake.
-

16. Implement Data-Driven Forecasting

- Use historical sales trends to predict demand by coffee type, time, and season.
 - Helps in planning stock, staffing, and reducing wastage.
-

17. Personalize Customer Experience

- Track individual preferences and suggest drinks based on past purchases.
 - Offer personalized discounts or custom combos to increase loyalty.
-
